-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of species K figures 1-3 and 22-26 in the reply filed on 8/2/06 is acknowledged. Claims 1-49 have been canceled.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 50-54 are rejected under 35 U.S.C. 102(e) as being anticipated by Liddicoat et al. 6,702,826. Liddicoat et al. discloses the invention as claimed comprising: providing a heart implant (100, 300, 105, 500) sized and configured to be positioned in a left atrium above the plane of a native mitral heart valve annulus having leaflets, the implant including a portion sized and configured to interact with movement of the leaflets of the mitral heart valve to affect mitral heart valve function; establishing an intravascular access path that extends from right atrium through a septum and into a

left atrium, deploying the implant through the intravascular path into the left atrium and positioning the implant in the left atrium above the plane of a native mitral heart valve annulus such that the portion interacts with movement of the leaflets of the mitral valve to affect mitral heart valve function. (see cols. 3, lines 29-44; col. 4, line above the plane of a native mitral heart valve annulus 31-36; col. Materials col. 9, lines 44-54; more methods col. 9, lines 60-67, col. 10, lines 1-46; for the "above the plane of a native mitral heart valve annulus" see figures 22-24 which illustrate "above and below" the tissue (3).
